SURVEILLANCE INTELLIGENCE & MATHEMATICAL VARIANCE AUDIT MEMORANDUM

REF: SIRS-DOSSIER-04BA06-SHOE-V85161

👔 EXECUTIVE BRIEFING:
The table finished down by **-$ 46,922** on **$ 123,820** in total bets (**-37.9% hold**). **In simple terms:** VIP players caught a lucky run on high-stake hands, primarily on **Round #26** where a single outcome cost the house **-$ 11,940**. Our statistical checks confirm this loss is **standard VIP volatility (1.52σ — Green Zone: Normal Player Luck (0.0 to 1.9σ))**—players simply won their high-denomination bets. Advantage play radar shows no signs of card counting or side-bet exploitation. Table cleared for routine operation.

1. TECHNICAL SUMMARY & HOLD VERDICT:
Shoe **SHOE-V85161** on Table **04BA06** concluded **36** rounds generating a cumulative turnover drop of **$ 123,820** with a Grand House Net of **$ -46,922 (-37.9% Hold)** against a Mathematical Expected Win (Theoretical Hold) of **$ 1,453.20**.
Risk Classification: **[NORMAL VOLATILITY]**.
• **Shoe Outcome Distribution: 20** Banker (55.6%), **13** Player (36.1%), **3** Tie (8.3%), **14** Naturals. *Conforms to natural random binomial distribution (Z = +1.14σ, balanced game flow).*

2. MATHEMATICAL VARIANCE & INTEGRITY AUDIT:
House net loss is within normal operational variance (**1.52σ — Green Zone: Normal Player Luck (0.0 to 1.9σ)**) driven by natural negative streak swings on high-stake rounds. Peak table liability occurred on **Round #26** resulting in maximum single-hand house loss of **$ -11,940** [Tag: `AUD-BA06-R26-GNS2-BNK`, Cards: *J♠ 4♣ 7♣ vs 10♠ 6♠ K♥*]. By contrast, the highest single-round house win occurred earlier on **Round #22** with a net win of **+$ 10,000**.

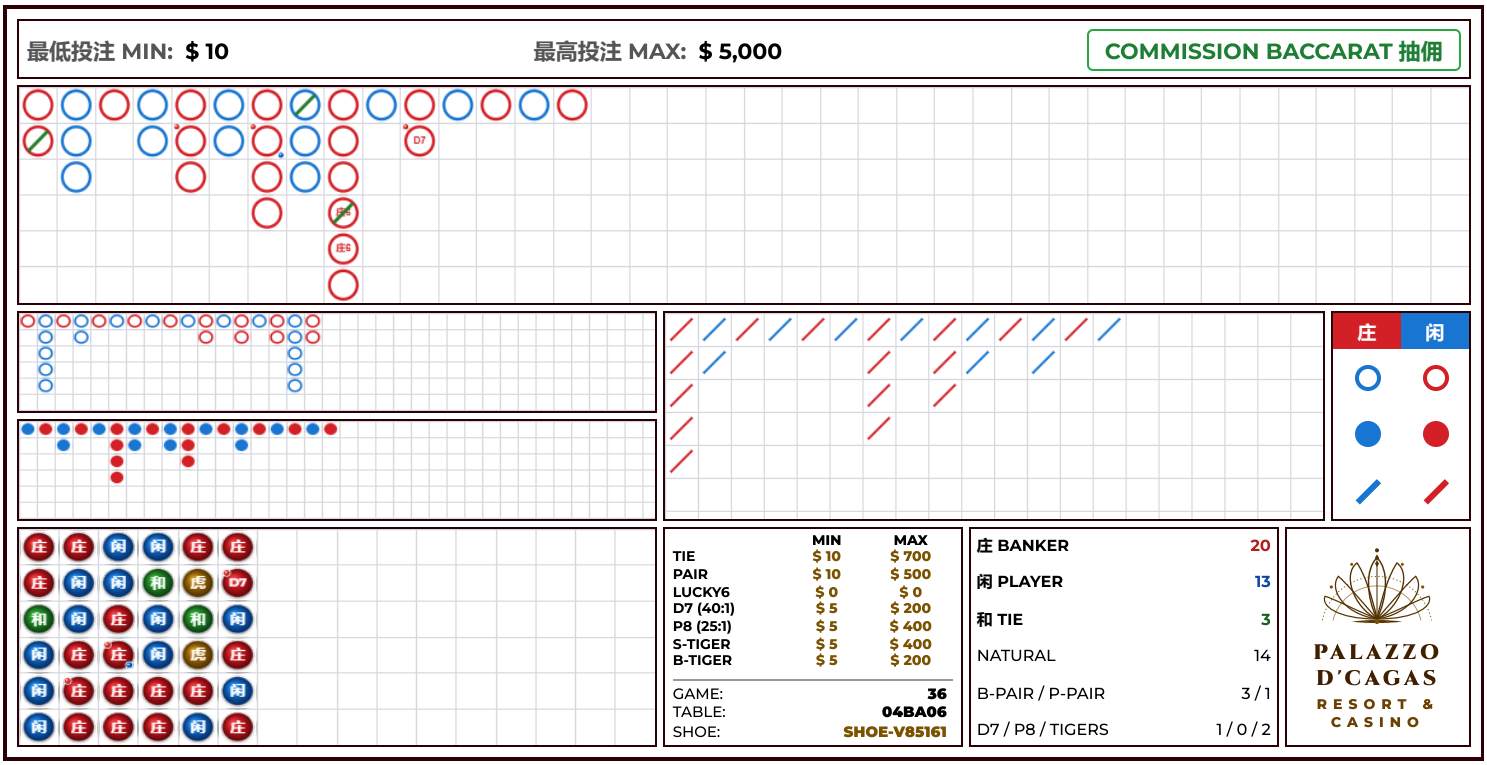

• **Wagering Velocity & Bet Spread:** High-amplitude VIP bet ramping observed (Spread: **500:1**, from $ 20 up to $ 10,000). High wagers concentrated on Rounds **[#17, #19, #20, #21, #22, #23, #24, #25, #26...]**. No predatory bet timing against shoe penetration or AP count spikes observed.

3. ADVANTAGE PLAY (AP), DECK COMPOSITION & INSURANCE:
• **Dragon 7 AP Risk:** True Count remained below advantage threshold (Current: **+0.92 TC**). House edge remained intact.
• **Panda 8 AP Risk:** True Count remained safe (Current: **-6.21 TC**).
• **Pairs Combinatorial Density:** Pair probability remained balanced at **8.27%** (baseline 7.47%).
• **Dual-Stage Insurance Audit:** Zero insurance volume recorded across 36 rounds (**$ 0** drop / **$ 0** payout). Zero hedge liability incurred by the house on 4-card or 5-card leads.
• **Dragon 7: 1** hit(s) in 36 rounds. Total bets placed: **$ 30** | Paid to players: **$ 0** (**House won +$ 30**).
• **Panda 8: 0** hit(s) in 36 rounds. Total bets placed: **$ 100** | Paid to players: **$ 0** (**House won +$ 100**).
• **Tigers: 2** hit(s) logged (Big Tiger: **1** @ 50:1, Small Tiger: **1** @ 22:1). Total bets placed: **$ 195** | Paid to players: **$ 2,550** (**House lost -$ 2,355**).

4. SURVEILLANCE PROTOCOL & RECOMMENDATIONS:
Opening indicator card **K♠** prompted **10** blind discard burns (11 total cards out). Blind discards remain mathematically rank-neutral under Griffin/Grosjean probability standards while correctly adjusting shoe depth to 226 remaining cards.

Surveillance Directive: CCTV verification recommended on Round #26 and rounds with stakes ≥ $5,000 to verify dealer card draw order, payout commission deductions, and absence of past-posting.
